

3-DAYS MASTERCLASS WITH HOWARD CHOY, B. ARCH

Masterclass: Feng Shui Xing Shi Pai – Form School

27. – 29. September 2019 in Vienna

AUTHENTIC FENG SHUI from a Chinese Master

Decode the secret of Qi

Form School is the oldest traditional Feng Shui school. It follows the laws of nature and establishes universally valid rules that make sense for all people and spaces. The approach is simple and effective, but complex to use. Howard Choy often emphasizes in his teaching the basic and often underestimated importance of the form school within Feng Shui.

There are forms of all sizes: in a landscape, a city, a quarter, the structure of a house, the floor plan, the furniture, the interior design and the decoration - all are forms. Big or small, three-dimensional or two-dimensional; All forms emit Qi energy.

Forms shape our environment. They are sometimes harmonious, sometimes inharmonious. We mostly are not consciously aware of it. Feng Shui judges these forms and shows how they affect us.

Form defines the Qi

Balancing measures create spaces that enhance well-being, health and performance.

Zhang Zai (1020-1078) – Qi Xue (The Study of Qi)

Zhang Zai proposed that everything is made of qi, but some are visible while others are not. In another words there are form qi and formless qi and they form a continuum that holds everything together

Essential aspects of the formal school

- Landscape
- Shape and configuration
- Yin and Yang aspects
- Qi flow, Qi structures and Qi qualities in the landscape and in spaces.
- exterior and interior
- Core principles of Feng Shui

We will apply the theories to concrete examples in the city of Vienna and present:

- Which statement can be made on the basis of the form and arrangement, yin and yang aspects and mood of a place, building complex or interior.
- We analyze the influence of these theories on people and their well-being.
- We work out how we use this methodology to change and improve the ambiance of places and spaces.

Howard Choy, in his usual humorous and entertaining way, he manages convincingly connect the Eastern and Western world view.

This three-day workshop uniquely teaches a methodological approach based on classical Feng Shui knowledge. We combine this with an intuitive, non-dogmatic and creative approach to Feng Shui.

target audience

Feng Shui Practitioners and people who design their own or foreign living and working spaces, such as: environmental designers, architects, interior designers, furnishing consultants, etc.

Basic knowledge of Feng Shui is an advantage, but not a requirement. Howard Choy explains very clearly, using practical examples, how to use Qi effectively.

This Masterclass provides an unique opportunity to observe up close and learn from an experienced teacher, the intricacies and "craftsmanship" in the application of classical Kanyu Feng Shui. You can look forward to a demanding and hands-on workshop with a pleasant atmosphere of a small size study group. All teaching will be done in English with German translation and at the end of the workshop you will receive a Certificate of Attendance from the European College of Feng Shui (ECOFs).

Feng Shui Practitioner from different schools are welcome!

HOWARD CHOY

Architect and international Feng Shui lecturer. Born in China, he emigrated to Australia as a teenager, where he studied architecture. In the 1980's he learned Feng Shui under the guidance of Master Ren Ziling in Hong Kong. Since 1992, he has been working with Chinese and Western universities on Feng Shui research.

As an architect and Feng Shui expert, Howard Choy always looks at the situation from both perspectives and realizes Feng Shui in a practical way. Howard Choy is director of the European College of Feng Shui (ECOFS) and a director of ar-qi-tektur, a Feng Shui Architects office in Berlin.
