1-day workshop: Shopping in the City Experience the Qi of Vienna!

Friday 24. October 2014 | 10 - 17 Uhr |

Experience the change of Vienna's most exclusive shopping mile with the international Feng Shui expert Howard Choy.

The city center location, the interaction of the buildings, the qi of the individual shops is the basis for successful shopping streets. Vienna's luxury shops and their structural changes offer an exciting setting for an environmental analysis.

In a short theoretical part with Howard Choy, you will find out the main characteristics of stores and their Qi. Then we analyze together on site old and new luxury shops. From "Graben" through "Kohlmarkt" to "Tuchlauben" we examine different stores and their potential for business success. From the entrance portals of Hans Hollein & Co to the uniform facades of the new designer shops - Vienna's golden mile an area with challenge.

Experience the somewhat different shopping tour in the city.

We are looking forward to an exciting day together with lots of fun and new impressions, Edith Anna Feldhofer and Maria Husch.
